

Your first graded homework assignment is due in class on Tuesday March 30. This problem will be graded partly on content and partly on presentation. The only specific presentation skills that you are responsible for so far are described in the *Layout* handout. The target length is 2 pages.

To determine your preferred learning style(s), take the online VARK test at <http://www.vark-learn.com/english/page.asp?p=questionnaire>. (Note that on this test you can choose more than one answer to each question.)

**Problem:** Write your mathematical autobiography. Include

- your background,
- your current interests and future goals,
- why you are taking this class,
- your preferred learning style(s), and
- whatever else is relevant or interesting.
