Mock Teaching Supervisor Instructions

Thank you helping with this activity. In evaluations of orientation, new graduate students repeatedly cited this as one of the most valuable parts of their preparation for Fall Semester.

- Please meet me on Friday at 9:20am in Morton 322. I will briefly introduce you and send you with the TAs you will supervise to your assigned room.
- When you get to the room, introduce yourself and describe what is going to happen.
- For each TA:
 - Have them present their section. They have been asked to do 20 minutes; allow them no more than 25.
 - Both you and the other TAs have feedback forms on which to take notes.
 - Allow 3-5 minutes for the other TAs to critique them.
 - Give your own critique.
 - Give the feedback forms to the speaker.
- When everyone is done, give them words of encouragement.
