

Do not rate yourself. Give a score from 0 (terrible) to 10 (excellent) on each of:

Quality of Presentation. Consider things like

- They made sense.
- They were well-prepared to present.
- The displayed slides conveyed information effectively.
- They used time appropriately, and stayed between 10 and 15 minutes.

Quality of Contents. Consider things like

- They conveyed the main idea or method of the paper.
- They showed that they had reproduced some numerical results from the paper.

Overall rating. Consider things like

- They convinced you that they deserve a good grade for the work they did.
