

# My Mathematical Autobiography

YUANHANG ZHANG  
JAMES

September 19, 2015

## 1 Background

I completed my college in China, major in Management. Then I join the master of economics program in Ohio University. Now I am in master student of mathematics in Ohio University.

- Bachelor of Management
- Master of Economics

## 2 Interests and Goals

### 2.1 Current Interests

- Mathematics  
Now I am taking Real Analysis, I find it very beautiful, or interesting. I like it.
- Computer Science

### 2.2 Future Goals

- I want to find a job in the States after this program, to make some money.

## 3 Why I am participating this Project

Because I want to learn about Dynamical Systems, I feel it will be useful!

Additionally, I am curious about quantum mechanics, so I want to know how it works.

## 4 Preferred learning styles

- Visual:6
- Aural:5
- Read/Write:3
- Kinesthetic:6

So my preference is multimodal(VAK).

## 5 Other relevance

- I have Advanced Differential Equation, and I'm taking Numerical Analysis, which should be useful in this project.
- Some programming experience: R, C, C++
